CC Pinkney invites you to join her at the National Child centred policing conference.

A lot of progress has been made by policing in how we police children, but there is always more to do!!

Come and hear from Dr Zoe Williams on how sport can make a difference through her fit4life project and Dr Carlene Firmin on Contextual Safeguarding. Find out how work is progressing in policing, on understanding adverse childhood experiences.

We'll also be launching our handbook for schools policing and the latest on the digital conversation between young people and policing.
